**Re: Arlington Fire District Headquarters
213 Vassar Road**

Jim Beretta,

Thanks for the opportunity to provide a quote for the above referenced projects. I have discussed the scope with Jolanda Jansen and offer the following quote:

For the Headquarters: \$1750.00

There are two frost heave locations where a shot is needed on the door sill.

We will need to detailed topo along the west and south side of the building, curb, any rims, paint marks from preliminary mark out of areas needing repair (Engineer will meet the surveyor and may add additional paint marks, different color).

Red Oaks Mill \$1750.00

We will need some inverts for existing drainage structures. Pavement details only on the west and north side of the building. The east side looks good and we're not going to do any pavement repairs.

Thanks again,

John Decker, L.S.
